

## COUNTERTOP OR WALL-MOUNT KIOSK

# C200 ticket redemption kiosk

The most compact kiosk. It sits on a counter or mounts on a wall.

The C200 reads the encrypted QR ticket a RedPlum skill game machine prints, checks it hasn't been paid, and pays out as a cash redemption kiosk. It's the most compact kiosk we make, at 14.17 inches wide, and a wall-mount bracket is available.

## 2,000

### Pick the C200 if

- you're putting it on a counter or bar top rather than the floor;
- you want the smallest footprint we make, at 14.17 inches wide;
- you want the option to wall-mount it, with the optional bracket;
- 2,000 bills across two cassettes covers your volume.

### Look at another model if

- you need more cash on hand: the E450 holds 4,000 bills, and the EX450 holds 7,200;
- you want it to stand on the floor: see the F600 or F600-V;
- you want a scan-first countertop unit: see the FD300.

### OPTIONS

#### Pyramid Sentry
