

STANDUP KIOSK · MOST CASH ON HAND

EX450 ticket redemption kiosk

Built for high-volume locations.

The EX450 is a ticket and cash redemption kiosk built for high-volume locations that want the most cash on hand between refills. It reads the encrypted QR ticket every RedPlum skill game machine prints, checks it hasn't been paid, and pays out 4 bills a second from four cassettes holding 7,200 bills.

7,200

Bills, from 4 cassettes of 1,800

4/sec

Bills dispensed a second

21.5"

Capacitive touchscreen

5 mm

Safe door, electronic lock

Pick the EX450 if

- you run a high-volume location and want the most cash on hand between refills;
- 7,200 bills across four 1,800-bill cassettes covers the busiest days without a mid-shift refill;
- you want the big 21.5" screen and a fast 4-bill-a-second payout.

Look at another model if

- floor space is tight: the E450 holds 4,000 bills in a cabinet over four inches shallower;
- the kiosk has to fit a narrower gap: the F600 and F600-V are 13.78" wide;
- it's going on a counter or a wall: see the C200.

OPTIONS

Pyramid Sentry

Pays out tickets from other machines on your floor that use Pyramid printers.

Bill Breaker

Available as an add-on. Ask sales which configurations support it.
