

STANDUP KIOSK

F600 ticket redemption kiosk

Up to 3,000 bills, from a cabinet 13.78 inches wide.

The F600 is a ticket and cash redemption kiosk in our slimmest standup cabinet. It reads the encrypted ticket every RedPlum skill game machine prints, checks it hasn't been paid, and pays out 2 bills a second. It takes three, four or six cassettes, so it can hold 3,000 bills between refills.

Pick the F600 if

- the kiosk has to fit a gap beside your machines, since it's 13.78" wide;
- you'd rather refill less often, since six cassettes hold 3,000 bills;
- you want room to grow in the same footprint, from three cassettes up to six.

Look at another model if

- payouts back up on busy nights: the F600-V pays 3.2 bills a second from the same cabinet;
- you need more cash on hand: the E450 holds 4,000 bills and the EX450 holds 7,200;
- it's going on a counter or a wall: see the C200.

OPTIONS

Pyramid Sentry

Pays out tickets from other machines on your floor that use Pyramid printers.

Bill Breaker

Available as an add-on. Ask sales which configurations support it.

Printer

Available as an add-on. Ask sales about adding one to your F600.
